

## *LIFE AFTER DEATH*

*When we die we simply move from one world into another.  
Heaven and Hell 445*

*After the death of the body, the spirit of a person appears in the spiritual world in a human form, altogether as it appeared in the natural world. They also enjoy the faculty of sight, of hearing, of speaking, and of feeling, as before in the world. They are endowed with every faculty of thought, of will, and of action, as before in the world. In a word, they are a person in all things and in every particular, as they were before in the world. This continuation of life is what is meant by the resurrection.*
